

Advert for Patient and Carer Members

NHS Insights Prioritisation Programme (NIPP) Transient Ischaemic Attack (TIA) project

- Are you a patient with lived experience of TIA or a carer, or family member, of someone who has had a TIA?
- Have experience of working with senior leaders and/or at a strategic level?
- Can you confidently participate in group discussions, and listen to and respect differing opinions?
- Do you have an interest in helping improve health care?

The Oxford Academic Health Science Network (AHSN) and Applied Research Collaboration Oxford and Thames Valley (ARC OxTV) are looking for two **patient and carer members** to work with us on our NHS Insights Prioritisation Programme (NIPP) Transient Ischaemic Attack (TIA) project.

The NHS Insights Prioritisations Programme (NIPP) aims to accelerate the evaluation and implementation of innovation that supports post-pandemic ways of working, builds service resilience and delivers benefits to patients. The collaboration between Oxford AHSN and ARC OxTV is focussing on the evaluation of in-person and virtual clinics for transient ischaemic attack (TIA).

The patient and carer members will sit on the Steering Group and Project Group, ensuring that that service user, patient, carer and family perspectives are included, and that plans to improve care are focussed on what matters most to patients and carers.

For further information and to apply, please read and download the below documents. You will need to complete the application form and return it to lisa-anne.dallas@oxfordahsn.org by **Friday 22nd April 2022 at 17.00**. If you have any difficulties accessing or downloading these forms, please email Lisa-Anne for assistance.

How to apply
