

Working in public health, health, or social care?

Curious about research and the difference it could make to the patients and people you work with?

Up to **£20,000** is available to help as part of an **NIHR ARC OxTV** research internship.

Our funded internships offer an introduction to all aspects and roles across clinical / social academic research, from trial design, data management and analysis through to undertaking practical research in a clinical environment.

The awards are open to professionals working in the public health, health or social care sector in Oxford and the Thames Valley region. See our website for full eligibility.

Closing date for applications: Friday, 29 April (5pm)

For further details and applications visit:
